

## EMPLOYEE COMPUTER AND INTERNET USE RULES

Each employee is responsible for his/her actions and activities involving school unit computers, network and Internet services, and for his/her computer files, passwords and accounts. These rules provide general guidance concerning the use of the school unit's computers and examples of prohibited uses. The rules do not attempt to describe every possible prohibited activity by employees. Employees who have questions about whether a particular activity or use is prohibited are encouraged to contact a building administrator [**or other appropriate administrator**].

### A. Access to School Computers and Acceptable Use

The level of employee access to school unit computers, network and Internet services is based upon specific job requirements and needs. Unauthorized access to secure areas of the school unit's computers and network is strictly prohibited.

All Board policies, school rules and expectations for professional conduct and communications apply when employees are using the school unit's computers, network and Internet services, whether in use at school or off school premises.

### **C. Disclosure of Confidential Information**

Employees are expected to use appropriate judgment and caution in communications concerning students and staff to ensure that personally identifiable information remains confidential.

### **D. Employee/Volunteer Responsibility to Supervise Student Computer Use**

Employees and volunteers who use school computers with students for instructional purposes have a duty of care to supervise such use and to enforce the school unit's policies and rules concerning student computer use. When, in the course of their duties, employees or volunteers become aware of a student violation, they are expected to stop the activity and inform the building administrator.

### **E. Compensation for Losses, Costs and/or Damages**

An employee is responsible for compensating the school unit for any losses, costs or damages incurred by the school unit for violations of Board policies and school rules while the employee is using school unit computers, including the cost of investigating such violations.
