STUDENT COMPUTER AND INTERNET USE RULES

All students are responsible for their actions and activities involving school unit computers, network and Internet services, and for their computer files, passwords and accounts. These rules provide general guidance concerning the use of the school unit’s computers and examples of prohibited uses. The rules do not attempt to describe every possible prohibited activity by students. Students, parents and school staff who have questions about whether a particular activity is prohibited are encouraged to contact the building principal. These rules apply to all school computers and all school-provided laptops wherever used, and all uses of school servers, Internet access and networks regardless of how they are accessed.

A. Acceptable Use

1. The school unit’s computers, network and Internet services are provided for educational purposes and research consistent with the school unit’s educational mission, curriculum and instructional goals.

subject the copier to substantial civil and criminal penalties. The school unit assumes no responsibility for copyright or licensing violations by students.

4. **Plagiarism** – Students may not represent as their own work any materials obtained on the Internet (such as term papers, articles, music, etc). When Internet sources are used in student work, the author, publisher and web site must be identified.
